

Call for Donation

Date: September 21, 2011

To: Charity Foundations & the Arabic Community in Canada

From: Dr. Hekmat Hindieh

Medical Adviser of the Canadian Medical Aid Foundation for Palestine, M.A.P

Montreal, Qc ,Canada.

Subject: Emergency medical equipments for the Occupied Territories in Palestine.

I am writing to you this letter as the medical advisor for M.A.P with the aim of presenting to you an opportunity to expand your foundation's charitable endeavors to contribute aid to the current dire healthcare situation in Palestine.

However, firstly, I would like to present you with information regarding my background and importantly M.A.P. Previous to my position as the medical advisor for M.A.P, I was working as a consultant in the Intensive Care Unit at the King Fahd Armed Forces Hospital in Jeddah for 20 years. Following this, I was appointed executive assistant at the King Faisal Specialist Hospital in Jeddah for the duration of five years. Currently, I have been working with M.A.P for one year with the goal of using my extensive medical experience to help prioritize the aid required in Palestinian hospitals.

Following to a recent visit with the Palestinian Minister of Health to several hospitals in the West Bank, amongst many other needs, I noted that there was a striking deficit in emergency medical equipments. This finding in fact was highlighted in a report by the WHO.

In Canada, we have contacted several Canadian charity organizations including CIDA, Canada International Development Agency, to raise awareness to the matter and help raise funds to buy the desperately needed medical equipments. We hope to extend this awareness to the gulf and other Arab countries as well.

To this effect, I am publishing this letter to emphasize the significance of the current healthcare situation in the occupied territories in Palestine and ultimately to ask you as organizations and individuals to consider our cause. If you would like to consider equipping directly any of these Hospitals, we will be more than happy to assist you in every aspect , this will be extremely appreciated. In gratitude, these donations will be named after your reputable foundation and or your names

We are prepared to present to you with all our official documents, certified by the Canadian Ministry of Foreign Affairs and the National Palestinian Authority as well as with a letter of recognition by Palestinian Embassy in Ottawa, Canada.

For further details ,and cooperation my self and Mr.Nabil Saba Vice president of M.A.P , We will be more than happy to visit you and to answer any inquiries you may have and to discuss the details of the plan in addition to liaison with the receiving Hospitals of your choice in Palestine .

Thank you for taking the time to consider our cause. Your help will be very much appreciated by M.A.P and more importantly the people of Palestine who are in need of these basic yet necessary medical equipments.
